

Cleaner-Degreaser Range

Cleans • Degreases

Strength	Product	Description	Application
Heavy Duty	HDC Degreaser	<ul style="list-style-type: none"> Our strongest heavy-duty cleaner (HDC) degreaser. A penetrative, emulsifying caustic product that provides a superior clean and easily removes heavy grease deposits. Suitable for outdoor, workshop and industrial applications. Has a free-rinsing, non-fuming citrus formula making it ideal for use indoors too. Is potassium hydroxide based. Is pH 13.0. 	<ul style="list-style-type: none"> Cleaning grease and oil spills on concrete paths, workshop floors, apron areas, petrol station forecourts and car parks. Commercial kitchens - cleaning splash-backs, floors and surfaces. Food court floors.
	Certify	<ul style="list-style-type: none"> An aggressive sodium hydroxide based cleaner degreaser. Provides an excellent clean and degreasing action. For use outdoors and indoors. Is pH 13.0. 	<ul style="list-style-type: none"> As for HDC Degreaser.
Medium	213 Foaming Cleanser	<ul style="list-style-type: none"> A unique high performance non-caustic, citrus boosted foaming cleaner degreaser. Is worker safe, food-safe and biodegradable. Can be applied to any hard surface to remove grime and heavy grease – efficiently and safely. Has pH of 11.0 – 12.0. 	<ul style="list-style-type: none"> Used where a non-caustic degreaser is preferred. Commercial kitchens – all surfaces, including walls and exhaust vents and floors. Meat & food processing facilities, and butchers shops. For general outdoor maintenance. Workshops and vehicle detailing e.g. wheels, bumpers, motors.
	Lightning	<ul style="list-style-type: none"> A milder alternative to 213 and has a foaming formula for all round cleaning and degreasing. Non-caustic, unperfumed and very versatile. Has pH of 11.5 – 12.0. 	<ul style="list-style-type: none"> As for 213 Foaming Cleanser.
Light Duty	Wipe Off Sanitising Degreaser	<ul style="list-style-type: none"> A general non-caustic cleaner-degreaser. A lighter version of 213, but with added Quat (quaternary ammonium compound), to give it sanitising properties. Is colourless and has a natural fresh citrus fragrance. Non-foaming and free-rinsing. Is pH 9.5. 	<ul style="list-style-type: none"> As for 213 Foaming Cleanser. Also as a general spray & wipe in kitchen and food service, accommodation and retail.
