

Mountain AIR

A range of anti-bacterial air-fresheners and odour blockers

Deodorises

- Amenities/toilets
- Motel rooms
- Public facilities
- Reception areas
- Garbage disposal areas

The Mountain AIR range has been formulated to include high quality perfumes, an eco-friendly anti-bacterial agent and pure filtered water. The result: High performance air fresheners with lasting odour control and disinfecting properties.

Within the range, Mountain AIR Odour Block has been specially formulated using odour blocking technology and is ideal if you need to completely mask strong or pungent residual smells.

The active agent in our Mountain AIR range is Quat (quaternary amonium compound), a food-safe and user-safe anti-bacterial biocide. The pH is in the range 6.8 – 7.5. *Echo AIR does not contain an anti-bacterial agent.

The Mountain AIR products are suitable for the heavy-duty requirements of the commercial sector including the hospitality and accommodation & leisure industries; retail; and aged care, for use in bathrooms and amenities, bedrooms and public rooms and facilities.

MOUNTAIN AIR PRODUCTS:

- Disinfect as they eliminate odours.
- Provide a lingering fragrance.
- Have neutral pH, in the range 6.8 – 7.5.

AVAILABLE IN A WIDE VARIETY OF PERFUMES:

- **WILDFLOWER:** clear with a mixed floral fragrance.
- **CRISP APPLE:** green & fresh green apple fragranced.
- **COCONUT:** clear with a coconut fragrance.
- **LEMONFRESH:** yellow with a sharp tangy lemon perfume.
- **ECHO FRUITY:** pink with a super fruity fragrance*.
- **VANILLA:** clear with a warm vanilla perfume.
- **ODOUR BLOCK:** pink with a floral bouquet perfume.

AND IN OUR AUSTRALIAN NATIVE RANGE:

- **LEMON MYRTLE:** green & scented with pure local lemon myrtle oil.
- **EUCALYPTUS:** green & scented with eucalyptus oil.

How to Use:

Instructions

Use neat in an atomizer and spray a fine mist.
