WONDERLOO

BIO-DEGRADABLE

RECOMMENDED & ENDORSED BY THE
GREAT BARRIER REEF RESEARCH FOUNDATION

*Unlike other portable toilet additives on the market—
these products contain no:*

**Formaldehyde, Glutaraldehyde, Surfactants, Chlorine,
Phosphates, Nitrate, Caustics, Acids, Sulphates, & Quats.**

Wonderloo Portable Toilet Tabs are designed with no harmful chemicals, making them **eco friendly and safe to use**. For use in caravans, buses, aeroplanes, boats and any portable toilet system. These tablets are a fast release tablet that begin working on contact.

DIRECTIONS:

20 litre holding tanks—1 x 30gm tablet weekly or per empty.

120 Litre Holding Tanks- Use 2 x 100gm tablets weekly or per empty
The above weekly suggestions are based on normal 2 person full usage. If only used as for urine, the tablets will have a longer life. *Both tablets can also be used in grey water tanks to freshen and sanitize the contents.*

On site Portable Toilets— the “slow release” 100gm block is recommended as these toilets can be left on site for up to 3 months.

DIRECTIONS: 1 block per initial dose, & depending on usage, add one per week.

These tablets emulsify faeces and paper quickly and eliminate odours. The contents are then totally safe for disposal into septic, sullage or septic systems.
