## Beerline Cleaner Part 2 Mountain Cleaning Products

Issue Date: September 2016

Valid to: September 2021

### SECTION 1: IDENTIFICATION OF PRODUCT AND COMPANY

---

Trade Name:	Beerline Cleaner Part 2
Synonyms:	NA
Chemical Formula:	NA
CAS Number:	NA
Product Uses:	Sanitising Part 2 of a 2 Part glycol system beerline cleaner and sanitiser.
Supplier/Manufacturer:	Mountain Cleaning Products
Address:	7/7/ Snow St, South Lismore, NSW 2480
Telephone:	02 6622 8733
Fax:	02 6622 8744
Email:	support@mountaincleaning.com.au
Website:	www.mountaincleaning.com.au
Emergency Telephone:	13 11 26 (Poisons Information Centre)

### SECTION 2: HAZARD(S) IDENTIFICATION

---

GHS Classification:	<b>Non-hazardous.</b>
---------------------	-----------------------

#### LABELLING ELEMENTS:

Signal Word:	None allocated.
Pictogram(s):	None allocated.
Hazard Statements(s):	None allocated.
Precautionary Statement(s):	None allocated.
Storage:	None allocated.
Disposal:	None allocated.

### SECTION 3: COMPOSITION AND INFORMATION ON INGREDIENTS

---

Ingredients	CAS No.s	Percentage (w/w)	Classification
Water	7732-18-5	> 60%	
Hydrogen peroxide	7722-84-1	Below cut off	H314 + H302 + H335

## Beerline Cleaner Part 2 Mountain Cleaning Products

Issue Date: September 2016

Valid to: September 2021

### SECTION 4: FIRST AID MEASURES

---

First Aid Facilities:	Normal washroom facilities.
Eye Contact:	Immediately irrigate with copious quantities of water for at least 20 minutes. Eyelids to be held open. Remove contact lenses if possible to do so, as contact lenses (especially soft lenses) can concentrate irritants. Seek medical advice (e.g. ophthalmologist) if there are ongoing symptoms.
Skin Contact:	Wash skin with plenty of water. Remove contaminated clothing and wash before reuse.
Inhalation:	Remove victim to fresh air away from exposure - avoid becoming a casualty. Allow patient to assume most comfortable position, keep warm and at rest.
Ingestion:	Do NOT induce vomiting. If conscious, rinse mouth thoroughly with water and give water to drink. If vomiting occurs, give further water to achieve effective dilution. Seek medical advice.
Advice to Doctor:	No specific antidote. Treat symptomatically. Poisons Information Centre in each Australian State capital city or in Christchurch, New Zealand can provide additional assistance for scheduled poisons.
Scheduled Poisons:	Poisons Information Centre in each Australian State capital city can provide additional assistance for scheduled poisons. Phone Australia 13 11 26.

### SECTION 5: FIRE FIGHTING MEASURES

---

Fire and Explosion Hazard:	Non-combustible.
Extinguishing Media:	Use fine water spray, normal foam or dry agent extinguisher (carbon dioxide or dry chemical powder).
Fire Fighting:	Keep containers exposed to extreme heat cool with fine water spray.
Flash Point:	None.
Hazchem Code:	None.

### SECTION 6: ACCIDENTAL RELEASE MEASURES

---

# Safety Data Sheet

## Beerline Cleaner Part 2 Mountain Cleaning Products

Issue Date: September 2016

Valid to: September 2021

Minor Spills:	Do not normally require special clean-up measures. Sweep up residues and rinse area with water.
Major Spills:	For example transport accident or bulk spill. Clear area of unprotected personnel. Work up wind or increase ventilation. Prevent spillage from entering drains or watercourses due to pH effect. Wear appropriate protective equipment (see section 8) to prevent skin and eye contamination. Contain spillage, then cover/absorb spill into dry, inert material (e.g. sand, earth or vermiculite), collect and place into suitable containers, appropriately labeled, for disposal by an approved agent according to local conditions. Spillage area may remain slippery. Flush spill area with excess water. If contamination of sewers or waterways has occurred advise the local emergency services. In the event of a large spillage notify the local environment protection authority or emergency services.
PPE:	Personal protective equipment advice is contained in Section 8 of this document.

### SECTION 7: HANDLING AND STORAGE

---

Handling:	Always wash hands with water after handling.
Storage:	Store in a cool, dry, place with good ventilation. Store out of direct sunlight. Keep containers closed at all times when not in use. Check regularly for leaks or damage. Slow decomposition of hydrogen peroxide in sealed containers can build up sufficient pressure to burst containers explosively hence product is supplied with a vented cap. Vented containers must be stored upright. Loosen caps slowly to release any pressure.

### SECTION 8: EXPOSURE CONTROLS AND PERSONAL PROTECTION

---

OCCUPATIONAL EXPOSURE LIMITS: None established for this product.

Ingredient	TWA	STEL	DNEL
Hydrogen peroxide	1.4 mg/m <sup>3</sup>		

Personal Protection:	Use good occupational work practice. The use of personal

Valid to: September 2021

	protective clothing would only be required if handling product in quantity and in accordance with risk assessments taken.
Engineering Controls:	None required.
Eye and Face Protection:	Not required for normal use conditions. Safety glasses, if risk of contamination.
Hand and Skin Protection:	Not required for normal use conditions. Where heavy contamination is likely, wear gloves.
Inhalation Protection:	Not required under normal use conditions.

### SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

---

Appearance:	Clear straw liquid		
Odour:	Faint oxygen odour	Vapour Pressure:	Not available
Odour Threshold:	Not available	Relative Vapour Density:	Not available
pH:	4.5 neat	Relative Density (Water=1):	1.0 at 25 °C
Melting Point:	Approx. 0 °C	Water Solubility:	Miscible in all portions
Boiling Point:	Approx. 100 °C	Partition Coefficient n-Octanol/Water	Not available
Flash Point:	Not flammable	Auto-ignition Temperature	Not available
Evaporation Rate:	Not available	Decomposition Temperature	Not available
Flammability:	Not flammable	Viscosity	Non viscous
Upper/Lower Flammability:	Not available		

### SECTION 10: STABILITY AND REACTIVITY

---

Reactivity:	Reacts with contaminants.
Chemical Stability:	Stable under normal conditions of storage and handling. Contamination of product and exposure to light and heat will accelerate decomposition. Shelf life 24 months. Readily

Issue Date: September 2016

Valid to: September 2021

	decomposed by dirt and heavy metal ions, producing oxygen. Gross contamination can cause violent decomposition of concentrated solutions.
Possibility of Hazardous Reactions:	Can decompose on combustion to form hazardous vapours, including carbon monoxide and carbon dioxide.
Conditions to Avoid:	Closed container combined with extreme heat.
Incompatible Materials:	Alkalis, metals salts, oxidisers and reducing agents. Includes glycerine, hydrazine, alcohol, carbon, oil, resins and finely divided metals.

### SECTION 11: TOXICOLOGICAL INFORMATION

---

Inhaled:	No harmful effects. Aerosols may be irritating to the respiratory system.
Skin Contact:	May cause short-term skin whitening.
Eye Contact:	May be mildly irritating to eyes.
Ingestion:	Swallowing in large quantities may cause irritation to the mucous membranes of the mouth, oesophagus and gastrointestinal tract with upper abdominal pain, heartburn, vomiting and diarrhoea.
Acute Toxicity:	Not toxic by calculation. No LD50 data available for this product. For active constituent, hydrogen peroxide (at 50%): Oral LD50 (rat) - 1193mg/kg (from literature).
Chronic:	No information available.

### SECTION 12: ECOLOGICAL INFORMATION

---

Ecotoxicity:	Not toxic by calculation. No LC50 data available for this product. For active constituent, hydrogen peroxide (at 100%): LC50 (fish <i>Ictalurus punctatus</i> ) - 37.4 mg/l – 96h (literature).
Persistence and Degradability:	Individual components stated to be biodegradable. Photochemical degradation (air) of hydrogen peroxide takes place. Quickly biodegradable to water and oxygen.
Bioaccumulative Potential:	None. Hydrogen peroxide quickly decomposes to water and oxygen.
Mobility in Soil:	High.

# Safety Data Sheet

## Beerline Cleaner Part 2 Mountain Cleaning Products

Issue Date: September 2016  
Valid to: September 2021

Other Adverse Affects:	None known.
------------------------	-------------

### SECTION 13: DISPOSAL CONSIDERATIONS

---

Disposal Methods:	Refer to Waste Management Authority. Dispose of material through a licensed waste contractor. Decontamination and destruction of containers should be considered.
-------------------	---

### SECTION 14: TRANSPORT INFORMATION

---

ADG Code Classification:	Not a dangerous good.
--------------------------	-----------------------

UN No.:	Not applicable.
---------	-----------------

Proper Shipping Name:	Not applicable.
-----------------------	-----------------

Transport Hazard Class:	Not applicable.
-------------------------	-----------------

Packing Group:	Not applicable.
----------------	-----------------

Hazchem Code:	Not applicable.
---------------	-----------------

Environmental Hazards for Transport:	Not applicable.
---	-----------------

### SECTION 15: REGULATORY INFORMATION

---

SUSMP (Poison Schedule):	Not a scheduled poison.
--------------------------	-------------------------

### SECTION 16: OTHER INFORMATION

---

Acronyms:	ADG – Australian Code for the Transport of Dangerous Goods by Road and Rail. AICS – Australian Inventory of Chemical Substances. CAS No. – Chemical Abstract Service Number used to uniquely identify chemical compounds. GHS – Globally Harmonised System. HAZCHEM – An emergency action code that gives information to emergency services during transport emergencies. IARC – International Agency for Research on Cancer.
