

PeroxyClean

Food-safe cleaner & sanitiser

Cleans • Sanitises • Deodorises • Degreases • Disinfects

Floors Walls Ceilings Hard surfaces Toilet bowls Amenities Windows

Use PeroxyClean as a general purpose cleaning and sanitising product. Its Mountain Active Oxygen cuts through dirt and grease, killing germs and eliminating odours at source. PeroxyClean also destroys fungi including moulds and mildew.

PeroxyClean is suitable for all hard surfaces including floors, walls, ceilings, tables and benches, white goods, amenities blocks, windows and paths. It can also be used as a laundry pre-wash.

PeroxyClean is made super-concentrated and is just diluted for each specialist application.

PeroxyClean is one of those rare eco-friendly, biodegradable cleaning products that actually works.

PEROXYCLEAN IS:

- AQIS approved for use in all food-related premises: including food preparation, consumption, transport and storage.
- Organic-safe*, so can be used by organic-certified producers, processors and manufacturers.
- Biodegradable to Australian Standard AS 4351.
- Extremely cost effective due to its high dilution rates.
- Replaces caustic and chlorine based products and is phosphate-free.

*PeroxyClean is formulated using hydrogen peroxide, which is a permissible cleaning and sanitising substance listed in the National Standard for Organic and Biodynamic Produce (Edition 3.4).
